# Key word index

Acid blockade, Hypergastrinemia, Omeprazole, Trophic effect, Chicken, Hamster, Guinea pig, 105

Acid inhibition, Plasma gastrin, Plasma somatostatin, Antral gastrin, Antral somatostatin, Rat stomach, 77

Adipose tissue, Somatostatin, Binding site, 261

Adrenal gland, Renin, Juxtaglomerular cell, Renal tubule, Cyclic AMP, 145

Adrenal medulla, Renin angiotensin system, Angiotensin II, Angiotensin receptor, Adrenal zona glomerulosa, 127

Adrenal medulla, Arginine vasopressin, Tyrosine hydroxylase, Phenylethanolamine *N*-methyltransferase, 217

Adrenal zona glomerulosa, Renin angiotensin system, Angiotensin II, Angiotensin receptor, Adrenal medulla, 127

Adrenocorticotropic hormone, Chronic stress, Immobilization stress, Corticotropin-releasing hormone, Vasopressin, Corticosterone, 117

Adult, Neuropeptide, Ontogeny, Neuromodulator, Newborn, Respiratory center, 183

Amino acid sequence, Glicentin, Oxyntomodulin, Gastrointestinal glucagon, 299

Angiotensin II, Diuretic, Hemorrhage, Sodium appetite, Thirst, 63

Angiotensin II, Renin angiotensin system, Angiotensin receptor, Adrenal medulla, Adrenal zona glomerulosa, 127

Angiotensin receptor, Renin angiotensin system, Angiotensin II, Adrenal medulla, Adrenal zona glomerulosa, 127

Angiotensin, Oxytocin, Subfornical organ, 343

Antral gastrin, Plasma gastrin, Plasma somatostatin, Antral somatostatin, Rat stomach, Acid inhibition, 77

Antral somatostatin, Plasma gastrin, Plasma somatostatin, Antral gastrin, Rat stomach, Acid inhibition, 77

Arginine vasopressin, Tyrosine hydroxylase, Phenylethanolamine *N*-methyltransferase, Adrenal medulla, 217

Atrial natriuretic peptide, Oxytocin, Blood pressure, Osmotic stimulation, 271

Atropine, Vasoactive intestinal polypeptide, Vagal stimulation, Luminal release, Portal release, Hexamethonium, Intraluminal pressure, 15

Atropine, Bombesin, Gastric secretion, Vagal stimulation, 95

Autonomic innervation, Thyroid gland, Thyroid ganglion, Neuropeptide coexistence, Vasoactive intestinal peptide, Neuropeptide Y, 193

Autonomic control, Neuropeptide Y, Neuropeptide, Neuromodulation, Trachea, Smooth muscle, 309

Binding site, Somatostatin, Adipose tissue, 261

Blood pressure, Atrial natriuretic peptide, Oxytocin, Osmotic stimulation, 271

Bombesin, Enteric nervous system, Ranatensin, Neuromedin B, Secretion, Receptor, 1

Bombesin, Gastric secretion, Atropine, Vagal stimulation, 95

Bombesin, Immunomodulation, Interleukin-2, CTLL-2, 323

Brain receptor, Cholecystokinin octapeptide, Pancreatic secretion, Conscious rat, 51

$Ca^{2+}$-free medium, Calcitonin gene-related peptide, Substance P, Enteric nerve, Neurotransmitter release, 227

Calcitonin gene-related peptide, Insulin secretion, Glucagon secretion, Nerve tissue protein, In vivo, Rat, 37

Calcitonin gene-related peptide, Substance P, Enteric nerve, $Ca^{2+}$-free medium, Neurotransmitter release, 227

Calcitonin gene-related peptide, Substance P, Tachykinin, Capsaicin, 289

Capsaicin, Calcitonin gene-related peptide, Substance P, Tachykinin, 289

Catecholamine, Neuropeptide Y, Luteinizing hormone release, Immunoneutralization, 209

Chicken, Hypergastrinemia, Acid blockade, Omeprazole, Trophic effect, Hamster, Guinea pig, 105

Cholecystokinin, Gastrin-releasing peptide, Duodenum, 153

Cholecystokinin octapeptide, Brain receptor, Pancreatic secretion, Conscious rat, 51

Chronic stress, Immobilization stress, Corticotropin-releasing hormone, Vasopressin, Adrenocorticotropic hormone, Corticosterone, 117
Circadian rhythm, Feeding schedule, Insulin, Gastric inhibitory polypeptide, Hormone, Gastrointestinal system, 279
Conscious rat, Cholecystokinin octapeptide, Brain receptor, Pancreatic secretion, 51
Corticocosterone, Chronic stress, Immobilization stress, Corticotropin-releasing hormone, Vasopressin, Adrenocorticotropic hormone, 117
Corticotropin-releasing hormone, Chronic stress, Immobilization stress, Vasopressin, Adrenocorticotropic hormone, Corticosterone, 117
CTLL-2, Immunomodulation, Bombesin, Interleukin-2, 323
Culture, Neuropeptide Y, Immunocytochemistry, Intramural ganglia, Urinary bladder, Guinea pig, 237
Cyclic AMP, Renin, Juxtaglomerular cell, Renal tubule, Adrenal gland, 145

Dark phase, Neuropeptide K, Feeding, Inhibition, Starvation, Neuropeptide Y, 135
Diuretic, Angiotensin II, Hemorrhage, Sodium appetite, Thirst, 63
Duodenum, Cholecystokinin, Gastrin-releasing peptide, 153

Eck fistula dog, Somatostatin-28-(1–12), Somatostatin-14, Prosomatostatin processing, Prosomatostatin (1–76), 247
Enteric nerve, Calcitonin gene-related peptide, Substance P, $Ca^{2+}$-free medium, Neurotransmitter release
Enteric nervous system, Bombesin, Ranatensin, Neuromedin B, Secretion, Receptor, 1
Epidermal growth factor, Urine, Plasma, Kidney, 89

Feeding, Neuropeptide K, Inhibition, Dark phase, Starvation, Neuropeptide Y, 135
Feeding schedule, Circadian rhythm, Insulin, Gastric inhibitory polypeptide, Hormone, Gastrointestinal system, 279

Gastric inhibitory polypeptide, Feeding schedule, Circadian rhythm, Insulin, Hormone, Gastrointestinal system, 279
Gastric secretion, Bombesin, Atropine, Vagal stimulation, 95
Gastrin-releasing peptide, Cholecystokinin, Duodenum, 153
Gastrointestinal hormone, Vasoactive intestinal peptide, Peptide histidine methionine, Peptide histidine isoleucine, Intestinal secretions, Ileum, Ileostomy, 57
Gastrointestinal system, Feeding schedule, Circadian rhythm, Insulin, Gastric inhibitory polypeptide, Hormone, 279
Gastrointestinal glucagon, Glicentin, Oxyntomodulin, Amino acid sequence, 299
Glicentin, Oxyntomodulin, Gastrointestinal glucagon, Amino acid sequence, 299
Glucagon secretion, Calcitonin gene-related peptide, Insulin secretion, Nerve tissue protein, In vivo, Rat, 37
Guinea pig, Hypergastrinemia, Acid blockade, Omeprazole, Trophic effect, Chicken, Hamster, 105
Guinea pig, Neuropeptide Y, Immunocytochemistry, Intramural ganglia, Urinary bladder, Culture, 237

Hamster, Hypergastrinemia, Acid blockade, Omeprazole, Trophic effect, Chicken, Guinea pig, 105
Hemorrhage, Angiotensin II, Diuretic, Sodium appetite, Thirst, 63
Hexamethonium, Vasoactive intestinal polypeptide, Vagal stimulation, Luminal release, Portal release, Atropine, Intraluminal pressure, 15
Hormone, Feeding schedule, Circadian rhythm, Insulin, Gastric inhibitory polypeptide, Gastrointestinal system, 279
Hypergastrinemia, Acid blockade, Omeprazole, Trophic effect, Chicken, Hamster, Guinea pig, 105

Ileostomy, Gastrointestinal hormone, Vasoactive intestinal peptide, Peptide histidine methionine, Peptide histidine isoleucine, Intestinal secretions, Ileum, 57
Ileum, Gastrointestinal hormone, Vasoactive intestinal peptide, Peptide histidine methionine, Peptide histidine isoleucine, Intestinal secretions, Ileostomy, 57
Immobilization stress, Chronic stress, Corticotropin-releasing hormone, Vasopressin, Adrenocorticotropic hormone, Corticosterone, 117
Immunocytochemistry, Neuropeptide Y, Intramural ganglia, Urinary bladder, Culture, Guinea pig, 237
Immunomodulation, Bombesin, Interleukin-2, CTLL-2, 323

Immunoneutralization, Neuropeptide Y, Luteinizing hormone release, Catecholamine, 209
In vivo, Calcitonin gene-related peptide, Insulin secretion, Glucagon secretion, Nerve tissue protein, Rat, 37
Inhibition, Neuropeptide K, Feeding, Dark phase, Starvation, Neuropeptide Y, 135
Insulin secretion, Calcitonin gene-related peptide, Glucagon secretion, Nerve tissue protein, In vivo, Rat, 37
Insulin, Feeding schedule, Circadian rhythm, Gastric inhibitory polypeptide, Hormone, Gastrointestinal system, 279
Interleukin-2, Immunomodulation, Bombesin, CTLL-2, 323
Intestinal secretion, Gastrointestinal hormone, Vasoactive intestinal peptide, Peptide histidine methionine, Peptide histidine isoleucine, Ileum, Ileostomy, 57
Intraluminal pressure, Vasoactive intestinal polypeptide, Vagal stimulation, Luminal release, Portal release, Hexamethonium, Atropine, 15
Intramural ganglia, Neuropeptide Y, Immunocytochemistry, Urinary bladder, Culture, Guinea pig, 237

Juxtaglomerular cell, Renin, Renal tubule, Cyclic AMP, Adrenal gland, 145

Kidney, Epidermal growth factor, Urine, Plasma, 89

Luminal release, Vasoactive intestinal polypeptide, Vagal stimulation, Portal release, Hexamethonium, Atropine, Intraluminal pressure, 15
Luteinizing hormone release, Neuropeptide Y, Catecholamine, Immunoneutralization, 209

Migrating myoelectric complex, Pig, Motilin, Pancreatic polypeptide, Somatostatin, 27
Motilin, Pig, Migrating myoelectric complex, Pancreatic polypeptide, Somatostatin, 27
Motilin, Receptor, Smooth muscle, 171
Mouse, Pancreatic islet, Pancreatic hormone, 315

Nerve tissue protein, Calcitonin gene-related peptide, Insulin secretion, Glucagon secretion, In vivo, Rat, 37
Neuromedin B, Enteric nervous system, Bombesin, Ranatensin, Secretion, Receptor, 1
Neuromodulator, Neuropeptide, Ontogeny, Newborn, Adult, Respiratory center, 183
Neuromodulation, Neuropeptide Y, Neuropeptide, Trachea, Smooth muscle, Autonomic control, 309
Neuropeptide K, Feeding, Inhibition, Dark phase, Starvation, Neuropeptide Y, 135
Neuropeptide, Ontogeny, Neuromodulator, Newborn, Adult, Respiratory center, 183
Neuropeptide, Neuropeptide Y, Neuromodulation, Trachea, Smooth muscle, Autonomic control, 309
Neuropeptide coexistence, Thyroid gland, Thyroid ganglion, Autonomic innervation, Vasoactive intestinal peptide, Neuropeptide Y, 193
Neuropeptide Y, Neuropeptide K, Feeding, Inhibition, Dark phase, Starvation, 135
Neuropeptide Y, Thyroid gland, Thyroid ganglion, Autonomic innervation, Neuropeptide coexistence, Vasoactive intestinal peptide, 193
Neuropeptide Y, Luteinizing hormone release, Catecholamine, Immunoneutralization, 209
Neuropeptide Y, Immunocytochemistry, Intramural ganglia, Urinary bladder, Culture, Guinea pig, 237
Neuropeptide Y, Neuropeptide, Neuromodulation, Trachea, Smooth muscle, Autonomic control, 309
